

## Gaithersburg Residence

Outdoor Living Area (Design/Build)

Botanical Decorators, Inc.

— GRAND AWARD —

The client wanted an oasis, not a swimming pool. The pool was designed to feel nestled into the landscape; having plantings come up to the edge of the coping accomplished this goal. A specimen Full Moon Maple is the focal point of the pool's waterfall. A custom-milled arbor adds architectural interest. Cryptomeria evergreens shield views to adjoining properties and Crape Myrtles soften the rear elevation of the home. Overall, the serenity of the space is exactly what the client had envisioned. ♦
